Subject: Re: FW: time sensitive message for sen mccain please from former cong. bill h...

dear chris,

the world's attention has recently been focused on efforts to save miners trapped underground in china and west virginia. and you tell me that sen. mccain is busy campaigning and won't be able to go with us to try to save several hundred American servicemen reportedly trapped alive underground in vietnam? please tell me you are joking, chris.

regardless, attached is my reply to your astonishing e-mail of 23 march. please forward it to sen. mccain and tell him it's from me and john and from ted as well. he'll know who we're talking about.

best regards.

billy hendon

Dear Congressman Hendon,

Ellen Cahill forwarded me your message. I regret to say that Sen. McCain will be in AZ for the entire recess, fully booked up with campaign events for his reelection effort. I know that he is interested to learn what information you are able to gather in your trip to Hanoi.

I look forward to staying in touch.

Best,
Chris Brose

dear johnny,

I am writing again about the confirmed but heretofore un-inspected underground supermax prison for american pows located beneath ba dinh square in downtown hanoi.

for perhaps the fifth time since last spring, i am writing yet again to now request that you accompany me and the world's press during the upcoming recess and inspect this facility where up to several hundred unreturned american pows have been reported detained. all my previous requests have, as you know, been ignored.

i am available to fly with you to hanoi at any time during the upcoming 29 march - 7 April recess. please get back to me before adjournment on when we might depart.

best regards.

billy
